Thank you for coming to Shiraz Cuisine

Shiraz is the city of roses and nightingales, the city of poets and philosophers, the city of warriors and kings, orchards and fragrant blossoms and above all the city of monuments where great empires of Achaemenians have come to power.

Through its many artists and scholars, Shiraz has been synonymous with learning, nightingales, poetry, roses and, at one time, wine. The oldest sample of wine in the world, dating to approximately 7000 years ago, was discovered on clay jars recovered outside of Shiraz.

Shiraz has had major Jewish and Christian communities. Shiraz should be called the city of cognition and art, because throughout history many thinkers, poets and Gnostics have been born and raised in this city. Each one of them has an exalted position.

Poets such as Sa'adi and Hafez are so well known that they need no presentation. In different parts of the world, many people are familiar with them. Many poets and literary men are inspired by their immortal and astonishing masterpieces and it is not surprising that the great poet and thinker, Goethe admired Hafez in his works.
